Hi Erica,

Is it possible to get the oyster heights for this data set as well?

Thank you,
Sabrina

I've attached the most recent submitted report associated with this data to help address questions concerning methodology and results. Please also refer to the 'Metadata' sheet included in the Excel document. Please don't hesitate to reach out if you have any questions.

Thank you Erica, it is much appreciated.

By January 9th would be best if possible.

Best,
Sabrina

Good afternoon Erica,

I am a UF Master's Student studying Fisheries and Aquatic Sciences with a project focused on oyster populations and water quality in the Lake Worth Lagoon, Palm Beach County. Attached is a short proposal of my project's direction.

I was reading through some reports and was hoping to use some raw data collected as part of my project, specifically date, site location, live count, dead count, and YSI readings. Is it possible to get this data back to 2005?

Thank you,
Sabrina Fischer
